

May 23, 2022

Dear Duneland Beach Association Member:

We have scheduled our Annual Meeting on **Saturday, June 25<sup>th</sup>** at 10:00 a.m. at the **Living Way Church (Duneland Beach Dr and US 12)**. **Whether attending the meeting or not, it is important that all Members complete and return the enclosed proxy no later than Monday, June 20<sup>th</sup>.**

**PROXY - Please return completed proxy voting on the following items:**

1. 2022-2023 DB Budget
2. Board of Directors – vote for three

**Sign and date the proxy.**

**ANNUAL DUES**

Our annual dues for the 2022-2023 budget are unchanged. The semi-annual dues will be \$1000.00, due January and July.

**BEACH SECURITY**

Mikolajewski & Associates will be providing our beach security again this year and will be checking for the **green** beach tags at the Stops. Please have your beach tags with your group.

**DUNE RESTORATION**

Our foredune and beach are our greatest asset. The record high lake levels have claimed more than half of the foredune. In many areas the boulders, that were installed in the mid 1980's at a previous high water period, are exposed. The dune grass that stabilizes and protects the remaining portion of foredune is fragile and must not be disturbed. **NO watercraft, beach chairs or other equipment will be allowed to be stored, even temporarily in the dune grass or under the stairs. Use the stairs to access the sand portion of the beach and prevent guests or children from walking in the dune grass.**

**FIREWORKS**

Indiana State Law allows fireworks on a homeowner's property and only during a 10 day period around the 4<sup>th</sup> of July. Fireworks are banned on the beach, the park and all roads in Duneland Beach.

**GARBAGE REMOVAL AND RECYCLE**

Garbage pickup will be once a week all year long. Recycle pick up will be once a week from Memorial Day thru Labor Day. During the remainder of the year, recycle pick up will be every other week. Please see the attached flier describing appropriate recyclable materials.

**WATER**

If you have an in-ground irrigation system and/or a swimming pool the Indiana Department of Environmental Management (IDEM) requires that the system be protected against accidental backflow of

untreated water back into the drinking water system. The state **mandates** that the device to prevent backflow must be tested annually by a state certified tester. If the service provider who maintains your irrigation or swimming pool is not certified to check your backflow device, contact the Duneland Beach Association via email to [info@dunelandbeach.net](mailto:info@dunelandbeach.net) for a list of certified testers.

**WEB SITE** ([www.dunelandbeach.net](http://www.dunelandbeach.net))

If you have questions or issues, please send an email to [info@dunelandbeach.net](mailto:info@dunelandbeach.net)

**IN CONCLUSION**

We invite all Members to join us at the Annual Meeting **but in all events please submit the proxy no later than Monday, June 20<sup>th</sup>.**

Respectfully Yours,  
The Duneland Beach Board
